• Introduction

Dissemination activity goals – Presentation of educational opportunities at the Maritime Faculty in Kotor as well as future potentials for graduated students, realized on 8th June 2016, were:

- An overview of the tradition of education of seafarers and other maritime human resources pointing out academic and practical titles;
- Possibilities to gain adequate qualifications, knowledge and practical experience necessary for international competitiveness on maritime labor market;
- Opportunities for graduated students to find job and creating their career;
- Introducing the students to the scientific and research area of the academic staff, specifically emphasizing current projects at the Faculty including newly ERASMUS + „Trans2Work“ Project;

- Raising awareness to the main project goals, including status of persons with disabilities at University of Montenegro, their rights, transition from school to work, equality etc.;
- Introducing future students with educational equipment used in lectures, laboratories and simulator rooms for practical work and computer and class rooms and amphitheatre etc;
- Discussion with Vice Dean for Education (manager for UoM) Asst. Prof. Tatijana Dlabac, other project team members, academic staff members and ongoing students in order to get an overall impression.

• Short description of activities

Preparation activities related to the Info Day organized on 8th June 2016 at the premises of Maritime Faculty in Kotor included dissemination of most important facts and information for all interested stakeholders through different dissemination channels (local radio stations and web sites).

Info day started with the opening and introduction speech of Faculty's representatives, future students and other stakeholders were informed about the long lasting tradition of education maritime human resources, scientific and research background, successful cooperation with other leading maritime educational institutions and representative institutions from maritime industry, potentials for graduated and ongoing students, importance of great number of currently implemented national, bilateral and international projects (INVO, Tempus, ERASMUS +, HERD).

Regarding Trans2Work project manager of the UoM working team and other members were able to discuss with participants about the main project goals and activities as well as achieved results up to now. They made efforts to promote project intentions through presentation, promotional materials distribution and additional information.

Specific attention was paid on educational and training activities at the Faculty for future seafarers which are harmonized with latest international requirements and standards.
