Participants

Students with disabilities from the University of East Sarajevo and academic staff.

Introduction

Objectives of the dissemination activities:

- Informing SwDs (those students who decided to participate in this phase of the project) about new information concerning the programme of student and staff mobility within the Erasmus + programme – Special Mobility Strand,

Short description of activities

The debate was attended by around 10 participants: SwDs, students, and academic staff. It was organized at the Faculty of Philosophy, on Thursday 8 June, 2017 in one of the faculty classrooms.

The aim of this dissemination activity was to inform the SwDs who have decided to participate in the programme of student mobility about the newest development concerning their travels and stays in one of the selected Universities - UNS, UNIKG, BMU and UDG. These information included details about things they are expected to do in this preparation period before their ultimate travel. They are informed that most of the issues concerning their stay and travel will be regulated by the inter-institutional agreement and the contracts they will sign. Also, students are asked to leave their contact numbers and email addresses, so they can be reachable for the administrative officials at the UES for further steps in their travel organization.

After this, teachers informed other students who were present about the activities done within this project so far, and encouraged them to participate actively in this project.

Altogether 4 students with disabilities from UES were interested for the mobility and the list with their names was forwarded to the University's office for international relations. These students are:

1. Dejan Baković
2. Milica Ijačić
3. Vanja Grujić
4. Goran Ristić
